About Motores

Our business started in 1996, with the spare parts. In 2011 we focused on windshields and during this time we gradually expanded our sales range. After we moved to the new warehouse in 2018, our distribution capabilities have increased. Now, we are one of the biggest distributors of windshields in Polish market, and we are on the way to manage the same with other countries.

Logistics and offer

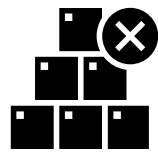

- Our greatest advantage is the breadth of our offer, as well as quick and convenient logistics. To achieve this, we have our own fleet of delivery vehicles and strong cooperation with the transport companies. As a result, our customers can order even one piece of windshield no matter where they are and receive it within 24 hours.
- Company and warehouse center in Jasionka.
- Second warehouse near Lodz.
- New warehouse ready in 2024/2025 near Wroclaw.
- Each of them is ready to accept full container deliveries.

Motores in numbers:

3 warehouses

70 000 pieces of windshields on the stock

Wholesale, mainly to workshops and local distributors

120 employees

We deliver with our own transport fleet or courier companies

We cooperate with the biggest insurance companies

motores

Via Carpathia

We are located in the center of the new road being built called „Via Carpathia”, connecting the north and south parts of EU countries. Which presents a great opportunity to expand our customer base to include new countries.

Thank You
